

FOREST SCHOOL NEWSLETTER

FEBRUARY

The children have had the opportunity to resow their tulip bulbs from last year, that have been drying out in the shed over winter. They also enjoyed sowing some garlic bulbs which have already started to sprout!

We have also started to prepare our potato seeds by "chitting" them. We have placed them root side facing down in egg boxes and are leaving them to sprout in a cool dry place.

FOREST SCHOOL NEWSLETTER

FEBRUARY

The children have been fascinated with digging and raking these past few months. So we have provided them with plenty of opportunities to do so.

What's been brewing in the mud kitchen? Fizzy mud! The children were super excited to get stuck in, mixing baking soda, vinegar and mud.
