

FOREST SCHOOL NEWSLETTER

APRIL

The children at Harborne Road have been learning about worms and how they make compost. We collected some vegetable peels and egg shells to create a mini compost bin.

We've been looking at different insects and bugs in our new nature books and the children helped me to create them out of clay, seeds and twigs.

FOREST SCHOOL NEWSLETTER

APRIL

There has been lots of seed sowing and planting this month. So far we have repotted some mint, sowed some potatoes and an assortment of other vegetable and herb seeds.

Preschoolers have been constructing their own dens and houses using branches and stumps.
