

FOREST SCHOOL NEWSLETTER

FEBRUARY

The children have been helping me to prepare the garden bed for the growing season ahead. We have been building some small willow fences and have already planted garlic and spring bulbs which starting to sprout.

The children have been enjoying lots of mark making in the soil with sticks and the chalk.

FOREST SCHOOL NEWSLETTER

FEBRUARY

We mixed an assortment of seeds, raisins and oats to make bird food this month which the children enjoyed measuring, mixing and scattering. There has been none left upon returning to the Forest School area and so I am sure the birds and squirrels have been enjoying this treat.

The children have been foraging for natural materials in the Forest School area to create shapes and pictures. Here is one we created with the babies.
